

The Federal Communications Commission

Dear The Federal Communications Commission,

Hey!!! This is like segregation you rich tards! If you want us to pay so much money for something that has been quite popular for about a hundred years now you can put more money into making the service better. I want to be able to talk to my family on Mars! I want a turkey dinner every night for the rest of my life! I want my girlfriend to work out and have a sexier body!!

Sincerely,

Gregory Barreg
